INDIANA FIELD LEVEL PERFORMANCE MEASURED BY PROGRAM

Measure Number	FY2007 Annual Performance Measures	Data Entry Point of Origin	Computation Methodology	Changes from FY06	CTA - GEN	CTA - GLC	EQIP	(EQIP) G&SWC	WRP	WHIP	GRP	CRP	CSP	PL-06	RC&D
0.10	0.10 Conservation plans written, acres	NCPDB (Toolkit)	Sum number of acres of each land unit where: 1) the plan approval date within the fiscal year, 2) any land use, and 3) at least one practice has been reported as planned in the current FY. For the program, use the program on the practice record. If the program on the planned practice record is CRP or WRP then credit the land unit acres to the program on the practice record. If the program is any other program, then credit the land unit acres to CTA. Divide CTA-Gen and CTA-GLC based on the land use, with pastured land uses counting towards CTA-GLC (grazed forest, grazed range, native/naturalized pasture and pasture).	measure was restricted to crop and grazing land, and this year the measure is expended to include all land uses.											
0.20	area-wide	PRS for CTA Watershed or area wide plans. POINTS RC&D and POINTS Watersheds	Three data sources, all expressed in number of projects; 1) PRS county level data entry screen for CTA Watershed or Area Wide Plans. 2) RC&D Points report 5.1 for the number of Watershed or area wide conservation plans developed within the fiscal year, and 3) Watershed Points Report 3.2 Count the number of Watershed Survey and Planning project "plans completed" in the fiscal year: where the actual completion date is within the fiscal year and the project study type = "PL-566 Watershed Plan" and the county for the location is based on the project primary county.	only the CTA will be collected in PRS and the RC&D and watershed progress will come from											

Measure Number	FY2007 Annual Performance Measures	Data Entry Point of Origin	Computation Methodology	Changes from FY06	CTA - GEN	CTA - GLC	EQIP	(EQIP) G&SWC	WRP	WHIP	GRP	CRP	csp	90-JA	RC&D
	1.10 Cropland with conservation applied to improve soil quality, acres	NCPDB (Toolkit)	Sum the land unit acres where the following conditions apply: 1.Land use is cropland or hay land, 2. one or more of the following practices (327, 328, 332, 330, 340, 342, 589c, 386, 511, 412, 449, 484, 590, 512, 595, 345, 329, 346, 344, 391, 610, 585, 600, 633, 380 or 650) are applied and reported this FY. Do not exceed the land unit acres, regardless of the number of the above practices applied. Only count the land unit acreage once.	New in FY07											
2.10	2.10 Land with conservation applied to improve water quality, acres	(Toolkit)	Sum the land unit acres where the following conditions apply: 1. Any Land use, 2. one or more of the following practices (560, 316, 327, 656, 332, 330, 342, 393, 666, 561, 441, 449, 543, 544, 634, 484, 590, 595, 528, 345, 329, 346, 391, 390, 610, 350, 578, 580, 585, 600, 612, 313, 359, 633, 635, 658, 659, 657, 380, 650) are applied and reported this FY. Do not exceed the land unit acres, regardless of the number of the above practices applied. Only count the land unit acreage once. Each program can get credit for the land unit acres if one or more of the practices is applied by that program.												
2.11	2.11 CNMP written, number	PRS	Sum the number of CNMP(100) written entered into the PRS county level data entry screen: CNMPs Written	No changes from C2											
2.12	2.12 CNMP applied, number	NCPDB (Toolkit)	Count the number CNMP (100) practices	No changes from C1											

Measure Number	FY2007 Annual Performance Measures	Data Entry Point of Origin	Computation Methodology	Changes from FY06	CTA - GEN	CTA - GLC	EQIP	(EQIP) G&SWC	WRP	WHIP	GRP	CRP	CSP	PL-06	RC&D
2.20	2.20 Land with conservation applied to improve irrigation efficiency, acres	NCPDB (Toolkit)	Sum the land unit acres where the following conditions apply: 1. Any land use 2. one or more of the following practices (552, 436, 441, 442, 443, 430AA, 430DD, 430EE, 449, 610, 587) are applied and reported this FY. Do not exceed the land unit acres, regardless of the number of the above practices applied. Only count the land unit acreage once. Each program can get credit for the land unit acres if one or more of the practices is applied by that program.	New in FY07											
3.10	5	NCPDB (Toolkit)	Sum the land unit acres where the following conditions apply: 1. Land use is Grazed range, grazed forest, native and naturalized pasture, pasture, and forest, 2. one or more of the following practices (584, 342, 647, 382, 394, 511, 666, 655, 561, 422, 441, 484, 590, 512, 595, 516, 378, 338, 528, 409, 562, 391, 390, 610, 574, 578, 395, 580, 612, 660, 645, 472, 633, 638, 642, 614, 658, 659, 657, 644, 648, 380, 650) are applied and reported this FY. Do not exceed the land unit acres, regardless of the number of the above practices applied. Only count the land unit acreage once. Each program can get credit for the land unit acres if one or more of the practices is applied by that program.	New in FY07											

Measure Number	FY2007 Annual Performance Measures	Data Entry Point of Origin	Computation Methodology	Changes from FY06	CTA - GEN	CTA - GLC	EQIP	(EQIP) G&SWC	WRP	WHIP	GRP	CRP	CSP	PL-06	RC&D
3.20		NCPDB (Toolkit)	Sum practice acres of the following practices reported as applied with an applied date in the current fiscal year: Wetland Wildlife Habitat Management (644) or Upland Wildlife Habitat Management (645), or Stream Habitat Improvement and Management (395).	No changes from C8											
3.30	3.30 Wetlands	NCPDB (Toolkit)	Sum of the practice acres applied for practices: Wetland Creation (658), Wetland Restoration (657), and Wetland Enhancement (659), when the practice is reported as applied and has a practice applied date within the current fiscal year.	No changes from C15											
6.12	6.10 Land and water resources benefited from completed RC&D Projects, acres	Points	RC&D Points report 4.1, choose completed projects,. Revise the land treated to add four categories by land use (crop, forest, grazing land and mined or reclaimed land), then add the acres of the four categories with land preserved or protected, water bodies created, and water bodies improved.	New in FY07											
6.13	6.13 Local businesses created or retained in rural communities, number	Points	projects and sum the number of businesses	No change from S 7 from last year except data collection is from Points this year
